

Career Mentoring

The Cathedral Alumni Association is in the process of beginning a Career Mentoring Program that would pair Cathedral Alumni with Cathedral students that are interested in finding out more about potential career opportunities. Our plan is to begin a pilot program with interested alums and a group of Cathedral students that are currently taking a class on Career Choices. We see this as an excellent opportunity for our students, as they begin to think about what career they would ultimately like to pursue, to meet successful Cathedral graduates in the Greater Indianapolis area that are currently working in these fields. Activities could include individual and group discussions, career days, and a visit to the work place.

If you would have an interest in being part of this program, please contact Ken Barlow, Director of Alumni Relations, at (317) 968-7366 or via e-mail at kenbarlow@cathedral-irish.org by February 10.
